PROJECTS

ShopNow, (*e-commerce website*)

Project Source (GitHub 🔗 / Demo 🔗)

- Developed a full-stack e-commerce platform using the MERN stack, featuring product listings, dynamic cart management.
- Implemented secure user authentication (JWT) and optimised REST APIs in Node.js/Express.
- Designed a responsive React UI with category filters and real-time search.

Investment Portfolio Tracker, (*Finance Tracker App*)

Project Source (GitHub 🔗 / Demo 🔗)

- Developed a real-time investment portfolio dashboard using React and Firebase to track assets, performance, and portfolio growth.
- Implemented secure authentication with Firebase Auth and optimized Firestore data modeling.
- Integrated interactive charts and responsive UI to visualize market trends and portfolio insights.

ReevaMovie, (*Movie Streaming App*)

Project Source (GitHub 🔗 / Demo 🔗)

- Developed a movie streaming web application using React and Redux, delivering a smooth browsing experience with real-time state management for movies and TV shows.
- Integrated TMDB APIs using Axios to fetch and display trending, popular, and genre-based content.
- Designed a responsive and modern UI with Tailwind CSS, implementing search and filtering features to enhance content discovery and user engagement.
